EDUCATION

Master of Computer Application
Ganpat University, 01/2018

Bachelor of Computer Application
A.S.Patel Bca & Pgdca College, 01/2016

PROJECTS

- Biometric/AABB (Healthcare)
Developed a web app using Angular, Node.js, and Bootstrap to optimize blood sales and inventory management for blood banks and hospitals.

- Perfeqta (Compliance Management)
Built a web-based equipment management solution ensuring compliance with FDA, GMP/GAMP, ISO 9001, and 21 CFR Part 11, centralizing calibration and maintenance.

- VC (Data Visualization)
Created a data visualization tool with Angular, Node.js, and MongoDB, integrating DevExpress BI for advanced analytics.

- PrazalPay (FinTech Suite)
Led the development of a FinTech suite featuring PratzalPay (payment gateway), a Landlord App, and a Tenant App for property management and transactions.

- Forward Line & FCC (Lending Platform)
Designed a web/cloud-based lending platform with Borrower, Merchant, and Back-office Portals, streamlining loan applications and approvals.

- Helpr (Childcare Services Platform)
Developed frontend components for a childcare services platform using React and Material-UI. Enhanced sitter and admin panels, integrated Stripe payments, and built analytics dashboards for data insights.
